

## South Fox Island – Proposed Land Exchange

May 15, 2001

(All proposed boundary locations and acreage figures are approximate)

- |          |  |
|----------|--|
| —        | Proposed Boundaries  |
| —        | Existing Northern Boundary of State Land with NPS Interest (approximately 120 acres <sup>1</sup> ) |
| <b>A</b> | Proposed Private Land (approximately 63 acres <sup>1</sup> )                                       |
| <b>B</b> | Proposed Private Land with Conservation Easement (approximately 47 acres <sup>1</sup> )            |
| <b>C</b> | Proposed State Land with Lighthouse Structures (approximately 10 acres)                            |

<sup>1</sup>Acreages shown are higher than those that have been stated previously. Measurements were taken from 2000 GIS data and reflect the fact that Lake levels are low. Accurate acreage would be determined prior to any actual land trade and land ownership is typically tied to mean high water mark.
